

Conservation Tips

- Turn off electronics when not in use.
- Use daylight when possible.
- Turn lights off when you leave a room.
- Be wise users of energy, not wasteful users.
- Dry clothes outdoors.
- Take shorter showers.
- Keep your refrigerator closed.
- In winter, put on a sweater or jacket instead of turning up the heat.

Energy Efficiency Tips

- Replace incandescent light bulbs with CFLs.
- Close blinds or curtains in summer to keep rooms cooler.
- Check SEER (Seasonal Energy Efficiency Ratio) ratings on heat pumps.
- Buy ENERGY STAR appliances.
- Use programmable thermostats.
- Thoroughly insulate attic.
- Use caulk to reduce air drafts.
- Install energy-efficient windows.
- Request a home energy audit from Georgia Power.
- Replace thresholds.
- Add storm doors to house.

Captain Cautious™

Georgia Power makes energy audits available to customers at their home or business.
