SUMMARY OF BENEFITS

The following information is a brief summary of the company benefits available to interns. It is not intended to provide details. You should refer to the Benefits tab on the mySource website for important details. The information in this Intern Book is not a contract or a guarantee of benefits and the Company has the right to change or end benefits without notice.

Holidays

Interns and co-ops are eligible to observe company holidays occurring during work terms without loss of pay. All paid holidays are for the hours normally scheduled to work on that day. A work term cannot begin or end on a holiday. Holiday pay should not be given if the holiday falls immediately preceding or following a work term.

- Example: Memorial Day falls on a Monday, the intern/coop would start their work term on Tuesday and not get paid for the Memorial Day Holiday on Monday.
- Example: July 4 falls on a Friday and is the last day of the last week of a work term. The intern/coop would not get paid for the July 4th holiday.

Co-ops and interns do not receive floating holidays, personal holidays or birthday holidays.

Please see your manager about specific holidays observed in your company.

Overtime

Your department head, manager, or other responsible superiors must approve any overtime hours worked. If overtime is required, you will be compensated at one and one-half times the regular rate of pay per hour worked or by other methods allowed under applicable law.

Direct Deposit

To enroll in direct deposit please visit the MySource website

Reimbursement for Travel

Interns are reimbursed for business travel during work periods only. Reimbursement is under management discretion.

Service Time Implications for Temporary Employees Converting to Full Time

Temporary employees, including interns, do not receive any service time for their time with Southern Company. However, in the case of an intern, a student may receive vacation service credit. A Recruiting consultant must complete an "experienced hire vacation form" for this individual and send to HR Direct for processing. In the case of an

intern, the student must have worked 2 work terms (6 months or more) to receive 1 year of vacation service credit. If student worked less than 6 months, then no vacation service time is granted. The hours worked as a temporary employee (which includes interns) are used for pension eligibility and vesting purposes in the event the temporary employee ever becomes a regular employee. Hours worked must meet the requirements as outlined in the summary plan description.

Employment Identity and Work Authorization Federal Requirement (Form I-9)

PLEASE READ THE INFORMATION BELOW IN ITS ENTIRETY

Federal Law requires new employees to provide, on or before their first day of employment, evidence of their identity and eligibility, for employment in the U.S. and complete the *employee* portion, Section 1, of Immigration Form I-9.

New hires must provide to the employer certain documents showing identity and eligibility to work in the U.S. Form I-9 and its instructions provide a list of acceptable documents.

On your first day of employment, your hiring manager or their designee will review your identity and eligibility documents and complete the *employer* section of Form I-9. If your hiring manager is not available to assist in completing this process, on your first day of employment, then it is important that you get with his/her delegate. NEW INTERN INFORMATION

The Southern Company Intern Program provides each Intern with supervised, progressive and meaningful work experience in the student's area of study. When you report to your assigned work location, you will be given a general orientation to the department and your work duties by the immediate supervisor. The Student Programs department will also host a new student orientation during your first month of employment to educate you on our programs and policies.

Here are a few additional suggestions that will aid you in your transition into the work force.

- The safety of its employees is Southern Company's number one concern! The Company spends a great deal of time and money to assure that its activities are as "accident-free" as possible. We practice Target Zero, a company program aimed at instilling individual responsibility for safety. Our policy is "every day, every job, safely."
- To avoid unnecessary delays in receiving your first paycheck, be sure to complete all the required paperwork on the first day of work. The Payroll department cannot add your name to the payroll until they receive all of your paperwork.
- You should understand that there is always some nonproductive time when learning a new job. Therefore do not get discouraged or impatient. You should not be concerned about having to perform the less-challenging tasks that you will, on occasion, be assigned, because every job requires performance of routine tasks.
- Utilize down time to learn about The Company (Southern Today, Student of the Business, Power U, etc.)
- Most problems can be overcome by communication. You might recognize a problem, or potential problem, that your supervisor might not see. It is as much your responsibility to initiate discussion as it is the supervisor's. If problems or questions arise, your immediate supervisor should be your first point of contact.
- Make the most of your evaluation periods. They are one of the most important elements in the Intern process.
 - voice (in a professional manner) your comments on your job assignments.
 - Communicate desired changes in the work assignment both to your supervisor and the Student Program Coordinator.
 - These periods provide you with immediate feedback as to your performance-highlighting strengths and developmental opportunities and providing recommendations for appropriate courses of action.
