

Michael Jesse

Vice President, Fleet Governance and Oversight Southern Nuclear Operating Company

Michael Jesse joined Southern Nuclear as vice president of Fleet Governance & Oversight in October 2019, bringing with him extensive experience in both pressurized water reactor and boiling water reactor technologies and more than 40 years of experience in the commercial nuclear industry across multiple companies.

Prior to joining Southern Nuclear, he served as vice president of both Operations Support and Nuclear Oversight for Xcel Energy, where he was instrumental in the development and implementation of a revised corporate governance and oversight structure that significantly improved corporate and fleet performance. His work was recognized by INPO as an Industry Good Practice.

Additionally, Jesse has an extensive background in regulatory affairs and licensing as well as proven experience with management systems, performance analytics and performance improvement. He holds a bachelor's degree in business administration from the University of Phoenix and earned his senior reactor operator license from Waterford Steam Electric Station.
