

Rusty West

Vice President, Fleet Governance and Oversight Southern Nuclear Operating Company

Rusty West serves as vice president of Fleet Governance and Oversight, a position he assumed in February 2018.

Prior to joining Southern Nuclear, he served as a consultant, providing services to Southern Nuclear, Tokyo Electric Power Co. and DTE Energy.

Rusty began in the nuclear industry at Entergy Nuclear, working in Engineering, Startup, Maintenance and as shift technical advisor in Operations. He moved to FP&L and later became the operation manager at Turkey Point Nuclear Generating Station and then plant general manager at St. Lucie Nuclear Power Plant. At Exelon, he was site vice president of Peach Bottom Nuclear Generating Station, vice president of Nuclear Oversight and site vice president at Three Mile Island. He moved to TVA and served as site vice president at Browns Ferry Nuclear Plant and in other executive positions.

Rusty has a bachelor's degree in electrical engineering from the University of Mississippi and a master's degree in business administration from Mississippi College. He holds senior reactor operator certifications for both boiling water and pressurized water reactors.
